

# Mr. Circuit I and II

## **KIT 0091** Mr. Circuit I

*The EKI 30-in-one Science Electronic Lab was designed to provide science teachers and electronics students with a meaningful and exciting introductory course in electronics. No previous electronic knowledge is required. The EKI Science Electronics Lab stimulates students minds by using easy to understand experiments to increase their knowledge about electronics and explain how much electronics is a part of our world.*

## **KIT 0092** Mr. Circuit II - Digital Magic

*Today, with computers and microprocessors found almost everywhere, an early exposure to digital techniques is essential to guarantee a student's success. The purpose of this lab is to teach the student about digital technology and provide extensive hands-on experience with digital circuits.*
