

Fifth Grade Creativity

The Fifth Grade Class in Elwood worked on their creativity while making “goop” in their enrichment class led by Janelle Jack. Some of the ideas of what it can do are:

Carsen – Invisible Goop, it hides you from Mom and Dad.

Adria – Vampire Blood, it could possibly be witch face paint, Zombie blood, and Frankenstein face paint.

Gracie – It makes witch’s disappear

Alessandra – Slime that glows in the dark so you can go trick-or-treating longer at Night

Lauren – Hardening Liquid slime for slime fights; it goes from soft to hard and crumbly

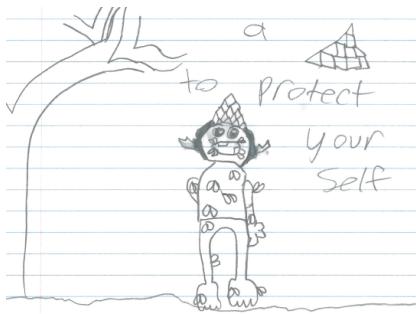

Julian – Hair Glow

Kenzie – Green Slime: you can catch people and freak them out with it!

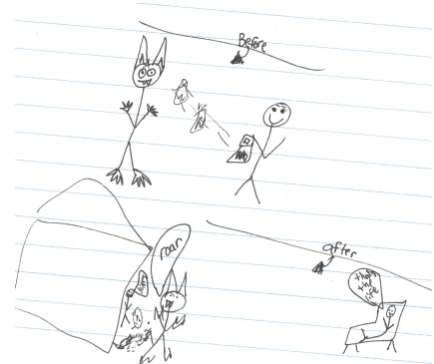

Ian – Green Blood to freak people out

Jadeyn – dripping green vampire blood and zombie repellent

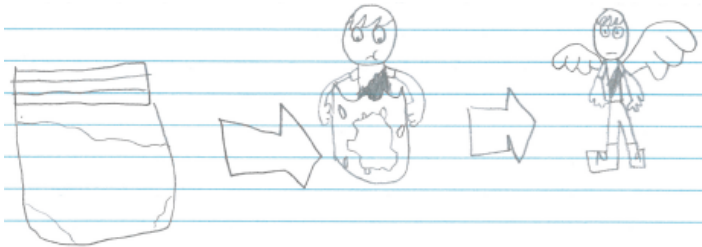

We also had some great pictures –

Jadyn – you can use it to stitch up a monster to protect yourself

Sheridan – the slime will make goblins your trick-or-treat minions.

Nick – it is Plasma Ectoplasma that is used for powers

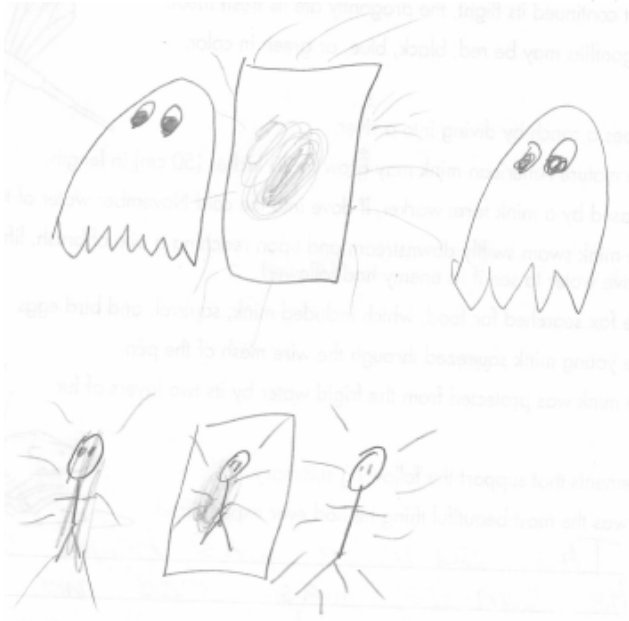

Marissa – It is Zombie Killer

Jake – Liquid Slime that smiles (-:

Rianna – Quicksand so you can
Catch people in it and say,
“I won’t let you go until you
give me your candy!”

Shannon – Ghost Goo – it glows and
you can go through walls

**They were very creative, great
listeners, and a lot of fun to
work with.**
