

Educational Service Unit #11

2024 Summer/Fall Graduate Courses offered at ESU #11

June 3 – June 7 – “Blended Learning: Station Rotation”

9:00 a.m. – 3:00 p.m. (Lunch on your own)

Are you looking for a way to provide small group instruction in your classroom and place students at the center of their learning? The Station Rotation instructional model does exactly that. It's a series of stations, or learning activities, that K-12 students rotate through. This class will allow teachers to learn how to facilitate differentiated small group instruction, prioritize student agency, and integrate technology to drive critical thinking, communication, collaboration, and creativity.

Instructor: Jody Bauer, ESU 11 Technology Curriculum Consultant

Target Audience: All educators

Graduate credit offered through Hastings College - 3 credit hours/Class may be taken for Non-Credit*

**\$750 Tuition is due the first day of class--payable by debit or credit card. Non-credit class fee = \$200 payable by check.*

June 10 – June 14 – “From Worrier to Warrior: Becoming the Boss of Your Brain”

9:00 a.m. – 3:00 p.m. (Lunch on your own)

There has been a continued increase in the number of students who are struggling with anxiety. The impact of anxiety is reaching every age group. Anxiety presents itself in the classrooms as well as in our homes and communities. This class will help educators answer the following questions: What is anxiety? How can we, as educators, recognize the signs and symptoms of anxiety? How can we address the needs of our students, and help them learn tools and strategies that will enable them to cope with anxiety?

Instructor: Karmen Scharf-Sears, Elementary Guidance Counselor, Kearney Public Schools

Target Audience: All educators and counselors

Graduate credit offered through Hastings College - 3 credit hours/Class may be taken for Non-Credit*

**\$750 Tuition is due the first day of class--payable by debit or credit card. Non-credit class fee = \$200 payable by check.*

Brain Friendly Teaching

Thursdays beginning August 15 and concluding October 8, 2024

4:30-9:00 p.m. (Bring a sack lunch)

Knowing how the brain learns and functions is imperative to helping students of all ages learn. This course will discuss the learning principles that are based on brain science, explore research about the human brain and how it relates to learning, and apply this knowledge to increase student achievement by identifying a variety of student engagement strategies and incorporating them in the classroom.

Instructor: Kate Hatch, ESU 11 Staff Development Director

Target Audience: All educators

Graduate credit offered through Hastings College - 3 credit hours/Class may be taken for Non-Credit*

**\$750 Tuition is due the first day of class--payable by debit or credit card. Non-credit class fee = \$200 payable by check.*
